

HEAVY DUTY COATINGS THINNER

DESCRIPTION

A premium blend of virgin solvents especially designed to be compatible with a broad spectrum of industrial coatings. The blend contains fast evaporating solvents to give rapid drying, as well as a percentage of slower solvents so that gloss levels of finish coats are not unduly affected.

USES

Used to thin Heavy Duty Protective Coatings and others, as well as for cleaning up application equipment. Particularly suitable for use as a general purpose solvent in protective coatings application workshops. Use in accordance with the coating manufacturers mixing directions, check compatibility with specific coatings prior to use.

PRECAUTIONS FOR USE

Highly flammable. Protective coatings applicators and others in the vicinity need to be protected by suitable personal protective safety equipment, including but not limited to, appropriate breathing apparatus and/or filters, eye protection, barrier creams etc.

PACK SIZES

200 Lt

Refer to Material Safety Data Sheet for handling and first aid instructions.
